BANGALORE

WELCOME TO AKASH GROUP OF INSTITUTIONS(AGI)

AGI was established under Akash Educational and Development Trust in the year 2014 with the exclusive goal to provide better healthcare facilities and strive to shape the future healthcare of our nation and beyond. The Akash Group of Institutions was established by educationalists and visionaries Mr. K. Muniraju and Mrs. Pushpa Muniraju with a sole intention to provide quality medical and health science education to all. AGI strives towards achieving global excellence in the field of medical education, paramedical education and nursing by providing their best foot forward in moulding its students to become professionals with international standards.

Akash Group of Institutions is the unique educational conglomerate of six major educational institutes and fully equipped Hospital:

1. Akash Institute of Medical Sciences and Research Centre
2. Akash Institute of Nursing
3. Maruti College of Nursing
4. Akash Institute of Physiotherapy
5. Akash Institute of Allied Health Sciences
6. Akash Institute of Paramedical Sciences
7. Akash International School

The Akash group of Institutions has its own Multi Specialist Hospital called Akash Hospital. The hospital has all the cutting-edge infrastructure facilities and is equipped with 600 to 1000 beds and separate Pre-clinical, Para-clinical and Clinical Departments. The institution aims to make every effort to promote self-learning among its students by providing departments-specific infrastructure which improves learning experience and supports the students in their all-round development. The Akash Group of Institutions is situated in 36 acres of lush green landscaped land in Prasannahalli in Devanahalli and it is very close to Bangalore International Airport.

WHY SHOULD STUDENTS CHOOSE THE AKASH GROUP OF INSTITUTIONS?

1. The Akash Medical College students will exclusively get high practical exposure in Akash Hospital, which is very much needed in today's challenging medical world .
2. Proximity to the airport helps in easy access to transportation for the students of Akash.
3. The AGI campus is free from all the hustle and bustle of chaotic city life. The institute is comfortably located in the prime location of Bangalore city, in a sprawling 36 acre lush green landscape. The campus is ideal for the students to take up their studies with focus along with comforts.
4. The institute has dedicated faculty and also provides a unique blend of theory and practical knowledge. This builds a strong knowledge of the fundamental concepts in the students of all the medical and medical science related subjects.
5. The AGI maintains the high standards in imparting medical, paramedical and nursing education to enter the list of top-ranking institutes of the country.
6. The Akash Group of Institutions has students from different demographics which makes it a multicultural campus for study of medical science and paramedical science related subjects.

FACILITIES @ AGI

Central Library equipped with digital library

Auditorium

Examination hall

Internship facilities for students

Practice in Akash Hospital in the Campus

Department Specific Laboratories

Lecture Halls/AV Rooms

Hostels within the campus

Students will get practical exposure in the Akash Hospital

1. High Speed Wi-Fi Campus
2. Cafeteria and Canteen for the students
3. Transportation Facilities
4. Sports Ground-Athletic/Football/Cricket Pitch
5. Real time practice for all the medical students at Akash Hospital in the campus
6. Indoor / Outdoor Sports

AKASH INSTITUTE OF MEDICAL SCIENCES AND RESEARCH CENTRE

Akash Institute of Medical Sciences & Research Centre (AIMSRC) was established in 2014 by the Akash Educational & Development Trust with the exclusive goal of providing knowledge in the field of medicine and shaping the future healthcare of our nation. The institute is affiliated to Rajiv Gandhi University of Health Sciences (RGUHS), recognized by MCI and approved by the Government of Karnataka.

The Akash Institute of Medical Sciences and Research Centre offers the following courses in Medical Sciences:

1. MD/MS

The Master of Doctor (MD)/ Master of Surgery (MS) course is a Postgraduate degree in medical sciences that can be done after MBBS. The MBBS students who are interested in higher studies in MBBS can opt for the MD/MS course.

MD/MS Specializations

The Akash Medical College offers MD/MS specializations in Pharmacology, Community Medicine and many more.

Course Duration

3 years

Eligibility

The candidate should have completed MBBS and should have qualified for the NEET-PG exam. The candidate should be at least 23 years of age on 31st December of the year of admission.

Total Intake: 7

2. MBBS

The Bachelor of Medicine and Bachelor of Surgery (MBBS) course is an undergraduate level professional degree field in medical science and treatments.

Course Duration

4½ years + 1-year compulsory internship

Eligibility

The candidate should have qualified the NEET exam and the candidate should be at least 17 years of age on 31st December of the year of admission.

For Indian Nationals:

The candidate should have qualified the NEET exam and the candidate should be at least 17 years of age on 31st December of the year of admission.

Foreign National / Non resident Indians

- The students should have passed their Higher Secondary School according to their respective boards in the subjects of Physics, Chemistry and Biology (taken together) and English as one of the subjects
- Should have documents to prove their NRI/FOREIGN status i.e Passport, work permit, school certificate etc
- Inward remittance certificate from the Reserve Bank of India
- Should have studied in English with Physics, Chemistry and Biology as major subjects

AKASH INSTITUTE OF NURSING

Akash Institute of Nursing is the premier institute that is committed towards providing excellent nursing education to students from India and abroad and strives to fulfil the variety of needs in the changing education scenario. Total Intake: 40

AKASH INSTITUTE OF ALLIED HEALTH SCIENCES

Akash Institute of Allied Health Sciences was started in the year 2019 under the Akash Educational and Development Trust. The college is affiliated to Rajiv Gandhi University of Health Sciences (RGUHS) and approved by the Government of Karnataka.

The Akash Institute of Allied Health Sciences offers the following courses in Allied Health Sciences

1.B.Sc Perfusion Technology

B.Sc Perfusion Technology is basically the study of physiology and pathology of the lungs and allied respiratory organs of the human body.

Total Intake: 10

B.Sc Anaesthesia and Operation Theatre Technology

The B.Sc Anaesthesia and Operation Technology course is curated to equip the students with the fundamental knowledge and hands-on skill of proper care, handling and dosage of anesthesia and also equips them with the techniques involved in operation theatres.

Total Intake: 20

B.Sc Medical Imaging Technology (MIT)

The B.Sc Medical Imaging Technology (MIT) course trains the students on the techniques and processes used to create images of various parts of the body for diagnostic and treatment purposes.

Total Intake: 20

B.Sc Renal Dialysis

The B.Sc Renal Dialysis course trains the students to administer hemodialysis treatments for patients with kidney failure and also trains them to conduct dialysis on kidney patients.

Total Intake: 10

B.Sc Optometry

The B.Sc Optometry course provides extensive training and medical knowledge of the human eye and also trains the students to handle the equipment used in eye treatments.

Total Intake: 20

B.Sc Medical Laboratory Technology (MLT)

The B.Sc MLT course emphasizes the study of the concepts and techniques that are required to carry out medical diagnosis for clinical purposes or in medical science.

Total Intake: 20

Eligibility

The candidate should have passed 10+2 level (Karnataka PUC, ISC, CBSE, state boards) in Science stream with 40% aggregate marks (or equivalent) from a board recognized by RGUHS with subjects Physics, Chemistry, Biology, Mathematics, and English.

AKASH INSTITUTE OF PARAMEDICAL SCIENCES

Akash Institute of Paramedical Sciences was started in 2017 under the Akash Educational and Development Trust. The Akash Institute of Paramedical Sciences is affiliated to Rajiv Gandhi University of Health Sciences (RGUHS), Paramedical Board of Karnataka and approved by the Government of Karnataka. The Akash Institute of Paramedical Sciences is affiliated to Karnataka Paramedical Board.

The Akash Institute of Paramedical Sciences offers the following courses in Paramedical Sciences

DMLT: Diploma in Medical Laboratory Technology

The Diploma in Medical Laboratory Technology course emphasizes the study of the basic concepts and techniques that are required to carry out medical diagnosis for clinical purposes or in medical science.

Total Intake: 20

DOT & AT: Diploma in Operation Theatre Technology & Anaesthesia Technology

The Diploma in Operation Theatre Technology & Anaesthesia Technology course prepares the students to work in operation theatres as a competent and reliable technologist. The course also gives the basic understanding of anaesthesia and anaesthetic agents used in surgeries.

Total Intake: 20

DHI: Diploma in Health Inspector

The Diploma in Health Inspector course trains the students about the methods and practices involved in maintaining top notch hygiene conditions. The course gives detailed knowledge to the students about developing competence in health and family welfare, fulfilling the need for healthcare professionals with regards to government regulations.

Total Intake: 20

DOT: Diploma in Ophthalmic Technology

The Diploma in Ophthalmic Technology expands on medical and surgical ideas learnt in life systems and anatomy, physiology and human eye. The students are trained to assist the eye doctors in eye hospitals, eye clinics etc.

Total Intake: 20

DMRT: Diploma in Medical Records Technology

The Diploma in Medical Records Technology course trains the students to handle medical records of the patients in hospitals. The course imparts training on different aspects of medical record collection like data collection, recording techniques, legal aspects, billing, computer application, relevant software and record storage.

Total Intake: 20

DMIT: Diploma in Medical Imaging Technology

The Diploma in Medical Imaging Technology is the paramedical diploma course that can be pursued by the candidates who are interested in performing diagnostics using radiation. The students are trained to take the internal images of the human body using radiation.

Total Intake: 10

Course Duration

- 3 Years(after 10th)
- 2 Years (after PUC or 12th)

Eligibility

- The candidate should have passed 10+2 level (Karnataka PUC, ISC, CBSE, state boards) in Science stream with 40% aggregate marks (or equivalent) from a board recognised by RGUHS with subjects Physics, Chemistry, Biology, Mathematics, and English.
- The candidate should have passed 10th with 40% aggregate from recognised board

ADMISSION PROCESS @AGI

The students can apply to different courses offered in the Akash Group of Institutes according to their course's eligibility criteria. The students can apply for the Merit/Management/NRI quota through counselling or can also get more information by contacting us at

+919513107575, +91 8095107575, +918095137775 , +919513597575.

The students can even mail us at : admissions@akashinstitutions.com

PLACEMENTS @AGI

The Akash Group of Institutions takes many initiatives to provide resources to students to ensure overall development, growth, and progress. The college infrastructure is one of the best in the country and is renowned for providing multiple opportunities for practical exposure and development. The students are provided multiple career opportunities in both the public and private hospitals, educational institutes, healthcare companies, industries, clinics etc. Internship and job opportunities are also provided in the associated hospital, Akash Hospital. Almost all the students from Akash Group are hired at Akash Hospital.

What makes Akash Placement Cell unique?

- The training on excellent interpersonal and communication skills
- Regular Seminars conducted from experts across the globe
- Regular Workshops and Health Camps for gaining practical skills
- Placement Cell helps in undertaking interprofessional learning with other health care students
- Regular Mock Interviews are conducted for students every year
- National and International Conferences and brainstorming sessions
- Internships are provided for all the students

AKASH HOSPITAL

The Akash Hospital is developed according to the standard norms of the Indian Medical Association (IMA) and the Medical Council of India (MCI). The Akash Hospital is fully equipped with cutting edge medical technologies for top-notch treatment facilities and is equipped with 600 to 1000 beds and separate Pre-clinical, Para-clinical, and Clinical Departments. The Akash Hospital played a key role during the pandemic by providing emergency response and treatment for the patients.

The Akash Hospital has designated Inpatient and Outpatient Wards with high-tech medical equipment, Intensive Care Units (ICU), Critical Care Units (CCU), and Casualty & Emergency Departments. The Akash hospital also has high-end laboratory facilities for Radiology, Pathology, Microbiology, Biochemistry, and Clinical Diagnosis. The top specialists from India and abroad regularly visit Akash Hospital to provide high-quality healthcare services for patients. Akash Hospitals is the one stop solution for all your medical needs.

There has been a huge demand for medical related courses like nursing, allied health sciences, physiotherapy and paramedical in recent years. There is a huge shortage of skilled paramedics across the globe. Many health agencies including Akash Hospital are readily looking to hire skilled paramedics for excellent salaries. The students from Akash college are largely hired by Akash Hospital for excellent pay scales. The students from Akash Group are also preferred by many other health organisations due to the high quality teaching offered to the students at Akash Colleges.

Departments and Super Specialities at Akash Hospital

Akash Hospital specialises in the following areas of expertise:

1. Anatomy
2. Pharmacology
3. General Medicine
4. Physiology
5. Pathology,
6. Paediatrics
7. Biochemistry,
8. Microbiology,
9. TB & Chest Diseases
10. Forensic Medicine
11. Dermatology
12. Community Medicine
13. Psychiatry
14. General Surgery
15. Ophthalmology
16. ENT
17. OBG
18. Orthopaedics
19. Anaesthesia
20. Radiology
21. Dentistry
